COBA's unique vision is to be a growing and caring organisation striving to achieve better results, year on year. We will achieve this by blending investment programs in all business activities, using modern equipment and systems with dedicated and highly competent people in all areas.

By working in partnership with our employees, customers and suppliers, we strive towards achieving world class leadership in Quality, Engineering, Design, Delivery, Service and Management of all products, coupled with the lowest cost achievable through never ending development and continuous improvement. To achieve this, we will ensure that activities will be conducted safely and do everything we can to ensure the continued health of our employees and customers. We will act responsibly in relation to the environment and will work towards the principles of sustainability.

## Global Supply Chain

COBA Africa's key mission is to market and provide the most comprehensive range of high quality products using a unique blend of technical expertise and highly skilled service such that we completely fulfil our customers' buying experiences.

## Supply Chain Solutions

With COBA sales offices and distribution facilities in Cape Town and Johannesburg, our business is strategically positioned to efficiently supply and support customers throughout South Africa, from the North West of the region to the Western Cape.

## In Store Support

Our merchandising services take brand offerings to the next level, creating excitement around products, services and brands at store level. Our dedicated sales team is always available to support the sales and merchandising staff who 'make it happen' on the retail shop floor.

## We understand your needs...

- Identifying and understanding your loyal shopper groups and their demographics, by retail store cluster.
- Determining key competition based on retailers whose target shoppers are similar to your own.
- Creating product assortment strategies according to categories you carry and range of items you offer.
- Product placement including overall store layouts, category adjacencies and shelving strategies.
- Pricing strategies for targeted competition, guardrails, regional and store-cluster considerations, as well as the tracking of competitive pricing.
- Promotions including both your internal educational platforms and customer promotional strategies.

# Interior Range

MICROFIBRE TECHNOLOGY

EXCELLENT ABSORPTION

## Ulti-Mat

Interior Range

### Washable microfibre doormat with super absorbency

- Exceptional multi-action entrance mat using hygienic microfibre technology.
- Superior 'brushing and wiping' with 'rapid dry' properties – even out performs cotton.
- Flexible, ultra-fine fibres (even finer than a human hair) provide deep-cleaning action on passing footwear.
- Effectively penetrates those hard to reach treads on footwear.
- Friction from the fibres generates a static charge that attracts and traps dust/debris.
- Filament structure creates a capillary effect for improved dirt retention/absorbency.
- Luxuriously soft pile that looks smart and will not lint.
- Environmentally-friendly – does not require chemical pre-treatment or washing detergents.

Microfibre with a rubber backing  
Height 8mm | Black or brown

	600 x 400mm	750 x 450mm
Black	MF050006 6009880587346	
Brown	MF050004 6003490001964	MF050004 6003490001971

### Useful Tips

You will get the best results when you have a combination of mats: one outdoors to scrape dirt off shoes, and another indoors to dry and absorb moisture.

100% COTTON PILE  
EXCELLENT ABSORPTION

## Dirt Buster

### A favourite for muddy shoes or paws

- 100% ultra-absorbent cotton pile surface effectively removes mud, water, oil and dirt from feet, wheels, and paws. Helps to prevent moisture and soil from destroying carpets.
- Machine washable, and can be tumble dried.
- Ideal for domestic and office use to protect floors.
- PVC Free Non slip heavy duty rubber backing.
- Non-Allergenic

100% Cotton with rubber backing  
Height 4mm | Light Grey or Brown  
500mm x 750mm

Light Grey | DT020004  
Slate Grey | DT060004  
Brown | DT050004  
Beige | DT140004

### Useful Tips

Can also be pressure sprayed with a garden hose. Use the back of a broom to squeeze excess water out and shake it vigorously to raise the pile before air drying.

100% COTTON PILE  
EXCELLENT ABSORPTION

### Useful Tips

Stop dirt and moisture from spreading right at the door.

# Welcome to our Commercial Range

## Slips in the WORKPLACE

### Taking slips seriously

Slips in the workplace are a real concern. Globally they are one of the highest causes of accidents. It's not just sprains and bruises. Slips all too frequently result in bone fractures or internal injuries of one sort or another. In the most extreme cases, slips can result in fatalities. Slipping is especially dangerous if the individual falls onto a sharp or moving object, falls from height or comes into contact with hot surfaces or chemicals.

### What are the causes?

Contaminants on floor surfaces are very often the culprit. This can be water, ice, oil, grease, chemical spillage, etc. It is not just spilt liquids that make floor surfaces dangerous. Swarf, powders and other dry debris can act like marbles on a floor surface. Uneven and poorly maintained floor surfaces can also cause both slips and trips.

### What can be done?

Good house-keeping is essential and educating employees about risks is imperative. Ensuring that floors are regularly cleaned and maintained, so they are free of contaminants should help to reduce the risk of slipping significantly. There should be no trailing cables either. Floor safety should be evaluated frequently, with regular risk assessments. Carefully consider any risks and make sure you are compliant with South African health and safety legislation. Initiating preventative measures, such as the installation of anti-slip matting, flooring or coating can dramatically improve safety underfoot. Ensure the area is well lit.

### Which sectors have the highest risks?

Healthcare & Social Care; Education; Food Retail; Food & Drink Manufacture; Catering & Hospitality; Manufacturing (General); Building & Plant Maintenance; Construction.

100% GREEN SHOWERMAT

## MK3 Rubber Tile

### 100% Recycled rubber and plastic drainage Mats

**HIGH EXPANSION AND CONTRACTION ABILITY**

## COBA Expansion Joints

### COBA expansion joints for use in the tiling of floors in a commercial or residential setting

- These joints are typically used when laying tile floors to accommodate the ongoing expansion/contraction of the tiles through temperature and moisture changes.
- The primary function of the joint is to prevent cracking and/or loss of adhesion to the screed between tiles.
- Our unique material formulation provides a cost-effective alternative to its aluminium counterpart without compromising on performance.

Produced with certified PP/LDPE material to provide better impact strength.  
 LDPE insert is renewable / removable if worn or damaged.  
 Custom/branded punch outs optional.  
 Can be made in any colour required.
